PROVERB FOR THE PENNY-WISE.

A penny saved is two earned is a proverb every one has heard, but which but few practice. While prudent about certain expenditures, many display reckless extravagance in others. A man who thinks nothing of buying a \$7 box of cigars will growl at his wife for paying fifteen cents for a new ribbon for her back hair. There are many who would run all over town to save ten cents on a barrel of flour, and yet will pepsia; a potent and permanent invigorator, and a permanent invigorator, and a permanent invigorator, and a permanent invigorator, and a permanent invigorator. A penny saved is two earned is a proverb every one patronize a showy, expensive clothing store believing that the place to secure bargains. If such persons would reflect but a moment they would see the error of their way. The bigger the store, the larger the mirrors, and more showy the plate glass front, the larger the expenses. When the expenses are large the profits have to be in proportion. This is logic too plain to be disputed. Every one will concede that to THE GENESIS OF GOOD CLOTHING sell low the expenses must be kept down to a very small figure. This is exactly the principle upon which business is conducted at the LONDON & LIVER-POOL CLOTHING CO., corner 7th and G streets. Where fancy clothing establishments have to secure a profit of from \$6 to \$8 on every suit they sell, we can more than pay running expenses at one-sixth those figures. Then again, our cheap prices make quick sales. That is where our real profit comes in. One per cent a month seems like a very small profit; ROSEDALE

The Luce of Life Not as Great as at First

Roported. WILESBARRE, PA., October 21 .- As now fully explained, the accident at No. 2 slope of the Delaware and Hudson company at Plymouth was caused by a miner, who entered an abandoned portion of the slope, which was marked dangerous, with a naked lamp upon his head thereby firing the gas and causing a terrific explosion. The loss of lite was not so great as at first reported here by telegraph. At this hour (2 p. m.) one man, Dennis Titus, is dead, and fourteen are frightfully burned. Most of these, it is thought, cannot recover. Most of the injured men are Poles and Hungarians. THE PRISON REFORMERS.

Killed by Falling Derricks. LOWELL, MASS., October 21.-At the reservoir in Centreville this morning, at the city water works, five derricks fell, killing Owen Elmer, a laborer, instantly, and seriously, perhaps fatally, injuring three others. A long guy, to which all the derricks were attached, was snapped in two by the strain and the derricks tell with a great crash. The injured are James P. Roberts, city engineer; Patrick Mongowan, Jno. Royal and Wm. Clew. The latter received only a scale wound.

Thus far there has been no outbreak, although serious trouble has been threatened. Tue persons accused of killing the Chinese hop pickers near Seattle have been arrested and are now in jail under indictment for murder in the first degree. Strong efforts have been made to intimidate Chinese employes at the Franklin and Newcastle coal mines, and many of the Chinese are leaving. These places are now quiet, but the coal companies are anxious in regard to the safety of their property. The Chinese consulat San Francisco was informed that the persons acrested. The governor says that it has been his desire to maintain order without the employment of troops by the government and a strong organization of the better class of citizens at Seattle arrayed itself under the law for preservation of peace. They are very voracious, and it is alleged that they destroy hundreds of thousands of pounds of edible fish daily. The fishermen declare that their business is rapidly declining from this cause. Their curious manner of living upon the rocks about the Golden Gate, renders the sea lions one of the curiosities of the Pacific coast. It may be thought best to protect them within a national reservation rather than to try to exterminate them. Mr. Redding intends to present an exhaustive report to the California legislature and to the United States fish commission.

The Revolt Against Gorman.

Two views of the contest in Maryland.

Messrs. Findlay and Cole, the two democratic Representatives from Baltimore, are in the city. They take exactly opposite views of the political situation in Maryland. Mr. Cole says the attack of Bradiey Johnson on Gorman was an outrage, and he will not admit that there is any doubt that Gorman will be returned to the Senate. Mr. Findlay says he believes Brown, the independent candidate for mayor of Baltimore, will be elected by 10,000 majority over the regular democratic nominee, and that Gorman will be beaten for the Senate. He says it A Vast Migration of Squirrels. LEAVING NORTHERN MISSISSIPPI IN THOU SANDS IN SEARCH OF BETTER FOOD.

A phenomenal migration of squirrels is now in progress from northwestern Mississippi in the direction of Arkansas. They are crossing the Mississippi from innumerable points along a line twenty miles in length, extending from De Soto Front, Miss., about five miles below Memphis, southward, to a point twenty-five miles distant, and are migrating westward miles distant, and are migrating westward through Lee and Crittenden counties, Ark. They are traveling in thousands and the people who live along the line of their march are klining them with sticks in countiess numbers. Enterprising men are following them in wagons, slaughtering as they go, and shipping the carcasses to the nearest market. They seem to have lost all fear of man, and in some instances have attacked hunters. Dr. Peters, of Lee county, Ark., killed thirty-eight in his wood pile with no better weapon than a stick. A similar migration was observed thirteen years ago, and is well remembered by old citizens. No one seems able to assigu a cause for the migration, but the general opinion seems to be that the squirrels are in search of better food than Micsissippi can furnish. Gen. Grant's Penknife. SOLD TO DR. WEBSTER, OF ENGLAND, FOR

Some weeks ago a widow who at that time lived near Long Branch brought to New York a gold-mounted penknife which she said had been lost by Gen. Grant in a railroad disaster near Little Silver station some years ago. The knife bore the name of Gen. Grant on one side. The lady said it had been found by her son in the bottom of a stream of water that runs near Little Silver station, and into which some of the cars were precipitated when the railroad accident occurred. She proposed to have it sold for the benefit of the Grant monument fund. Nothing beyond what the lady told was known of the history of the interesting relic. It was announced for sale, and Mr. A. J. Packard, of Buffalo, N. Y., offered \$50 for it. In the meantime a letter was received from Col. Fred. Grant saying his father owned such a knife, and that it was given to him while on his European tour. The paper containing the notice found its way to Englond and was there read by Dr. C. B. Webster, of Sheffield, the United States consul, who had given the knife to Gen. Grant and who immediately recognised it by the description. He sent to a friend it possible, and yesterday that friend called an paid for it \$100, which will go to the Grant monument fund committee.
